

# ENVIRONMENTAL SOLUTIONS

It is the common understanding of the natural environment that underlies environmentalism — a broad political, social, and philosophical movement that advocates various actions and policies in the interest of protecting what nature remains in the natural environment, or restoring or expanding the role of nature in this environment. The primary goal of Environmental Management is compliance and waste reduction. Few companies in the U.A.E offer comprehensive Environmental Management services like Tatweer does, which is why we are proud to be part of an exclusive and elite list of companies in the U.A.E- one that is a member consultant of the Environment Agency-Abu Dhabi and is accredited by Tadweer (The Center of Waste Management – Abu Dhabi).

## Consultancy Services

Tatweer can help you through to identify, assess and consult a wide range of environmental and sustainable issues. Consultancy's strength lies in its capabilities of economically integrating its environmental, engineering and scientific expertise into existing market of UAE.

### **1. Waste Management System Development and Implementation Support**

As an innovation and practical solution provider, Tatweer not only documents waste management plans for the entities but also assists them to develop a system that is completely in line with the requirements of Tadweer. Once completely implemented, it will help entities to be in complete compliance status with Tadweer. Furthermore, compliance would mean that it will result in huge saving for entities by avoiding the penalties every year.

### **2. Waste Management System Maintenance Support**

The ultimate goal of being able to achieve the target rate of 20% waste reduction is the focus of this service. Maintenance support is provided to companies wherein a system is in place but the desired result has not yet been achieved.

### **3. Waste Auditing & Reporting**

In today's marketplace, there are multiple reasons to perform waste and recycling program audits. Whether your business or institution is looking to save money or want to become in-compliance with Tadweer or to increase its recycling rate, reduce its carbon footprint, or all of the above, a waste and recycling audit can provide numerous benefits. Tatweer environmental consultancy offers waste audits as per Tadweer requirements and following additional purposes:

- Waste generation and recycling rate projections
- Waste stream composition and capture rate analysis
- Employee recycling education and incentive programs
- Contract review with Environmental Service Providers (ESP)
- To check the compliance level on quarterly, bi- yearly basis.

### **4. Environmental Compliance Auditing (ECA)**

Tatweer enables its clients to effectively comply with environmental regulations, statutes and local laws through a pro-active and in time approach thereby achieving the status of environmental due diligence.

## Training Services
