

ENVIRONMENTAL SOLUTIONS

It is the common understanding of the natural environment that underlies environmentalism — a broad political, social, and philosophical movement that advocates various actions and policies in the interest of protecting what nature remains in the natural environment, or restoring or expanding the role of nature in this environment. The primary goal of Environmental Management is compliance and waste reduction. Few companies in the U.A.E offer comprehensive Environmental Management services like Tatweer does, which is why we are proud to be part of an exclusive and elite list of companies in the U.A.E- one that is a member consultant of the Environment Agency-Abu Dhabi and is accredited by Tadweer (The Center of Waste Management – Abu Dhabi).

Consultancy Services

Tatweer can help you through to identify, assess and consult a wide range of environmental and sustainable issues. Consultancy's strength lies in its capabilities of economically integrating its environmental, engineering and scientific expertise into existing market of UAE.

SOLID & HAZARDOUS WASTE MANAGEMENT CONSULTANCY

The mandate under “Law no. (21) Waste Management in Emirate of Abu Dhabi”, necessitates every waste generator to develop, implement and maintain proper waste management practices for the preservation of environment through sustainable development. We optimally serve our clients for waste management to accomplish strategic compliance to existing applicable legislation.

Tatweer is one of leading consultancy of UAE providing competent Waste Management Consultancy services to the waste producers in Abu Dhabi from private, public and government sector entities. We are especially focused on characterizing waste material streams to harvest available recycling, composting, energy recovery potentials, and reduce waste dumping into the landfills.

1. Waste Management and Reduction Work Plan

Waste management Reduction plan have a key role to play in achieving sustainable waste management. Their main purpose is to give an outline of waste streams and treatment options. More specifically they aim to provide a planning framework for the following:

- Waste management plans are required in order to get compliance status and to achieve reduction targets as per Tadweer (The Centre of Waste Management) requirements.
- Waste management plans give an outline of waste streams and quantities to be managed. Furthermore, they contribute to ensuring that the capacity and the nature of collection are in line with the waste to be managed.

2. Waste Management and Reduction Application

Tatweer is offering service for the preparation of Waste Reduction Application documentation for the entities of Abu Dhabi based on the requirements of Tadweer (Center of Waste Management, Abu Dhabi) as Sector Regulatory Authority (SRA) for the Waste Sector in compliance with all the local and international laws. This starts with the identification of different waste streams produced by the entity by doing a through audit which results into a Waste Reduction Application in the approved format of Tadweer.
